

Educating our future intelligence workforce to safeguard our coasts.

Project Title	Educating our future intelligence workforce to safeguard our coasts.
Project Summary	Perform research and analysis of intelligence degree programs that will benefit and shape the Coast Guard Intelligence workforce in supporting Coast Guard operations and homeland security missions.
Country	United States

Project Description

Research and survey existing and upcoming intelligence degree granting programs at undergraduate institutions and analyze and compare them against competing factors such as location, proximity to major ports and intercoastal waterways, curriculum, etc. Deliverable will be a white paper with supporting graphics and tables that will assist in planning, recruiting, and educating our future workforce.
